Create a webpage with the following features in HTML:

- a. Print your name using appropriate header in red color, address using address tag, use a link of your [linkedin](#) or [facebook](#) and marquee tag to display the mobile number
- b. Place your photo of size 100x100 to a right side of the page with a caption to the figure
- c. Create a horizontal rule
- d. Create a section tag called "About me" to describe about yourself in a paragraph format, use acronym tag to mention the theoretical area of interests in bold bulleted text and technical languages known in emphasized italic bulleted text (Do not use UL tag here) in one by one in separate line
- e. Set the background color of the page as yellow
- f. Write a comment line on your code and make sure it is not displayed in the page
- g. Use "details", "summary" and "p" tags to give a summary note of yourself and highlight using appropriate tag to specify your significant achievement
